## Levies

### School Levies – Key Learning Areas

These levies are essential to the running of our school and are used for such items as art/craft materials, ICT resources, certain class texts, sport affiliation fees, part photocopier rental and duplicated sheets, excursions, cultural activities and transport. These will be levied each year on a monthly account, the total cost having been divided by 10 months. Families will be informed of the cost and programme for the next year at the end of each year.

### School Maintenance Levy

To maintain and improve the school buildings and grounds, we employ a Grounds and Maintenance person and cleaning staff to ensure the school is always in top condition for all students to use. Families are charged a yearly levy to cover the wages of our employee.
